

# To LAEP or not to LAEP?

The role of local authorities in  
energy planning

# SWNZH LAEP Project Overview

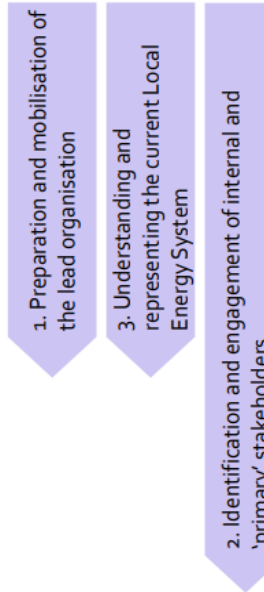

4 areas in the SW

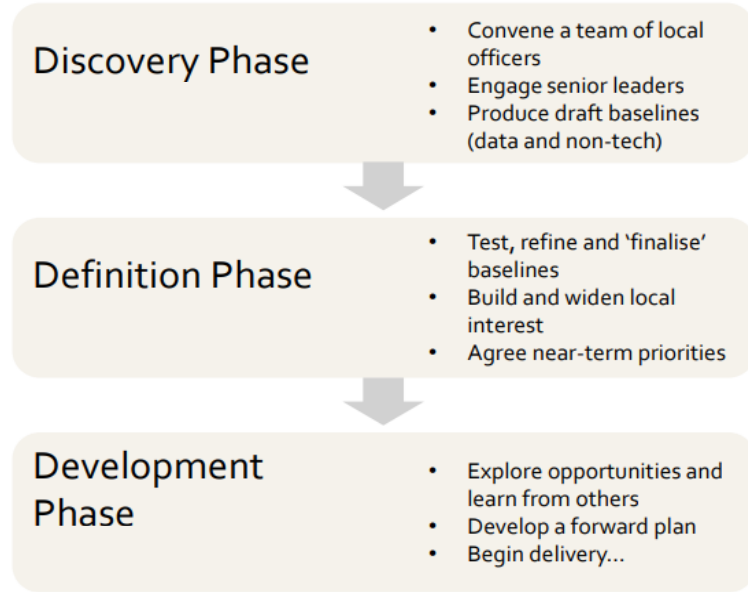

The initial objective was for all areas to start with Stages 1-3 in this project and then go on to do Stage 4-7 afterwards...

**REGEN** 

ESC LAEP Stages 1, 2, 3

The Project Approach

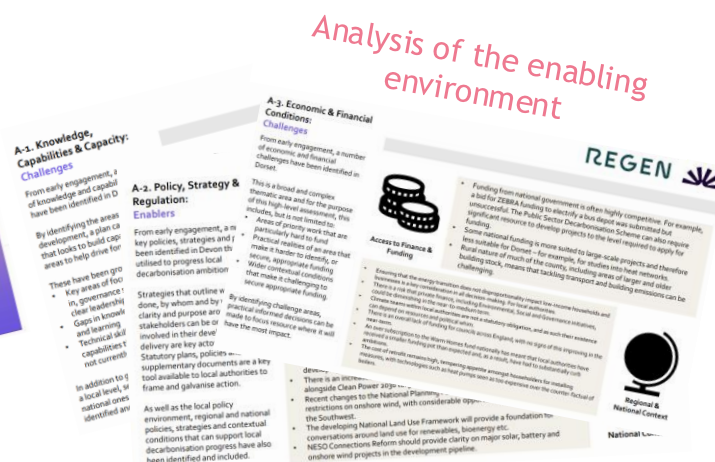

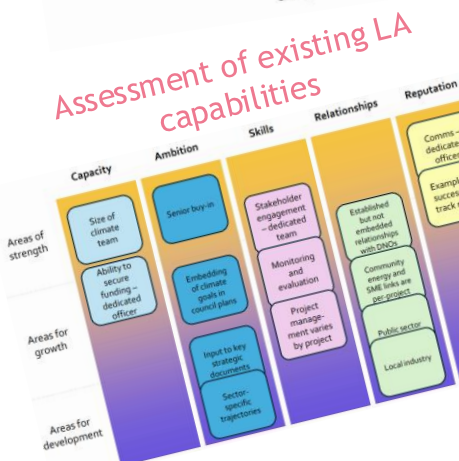

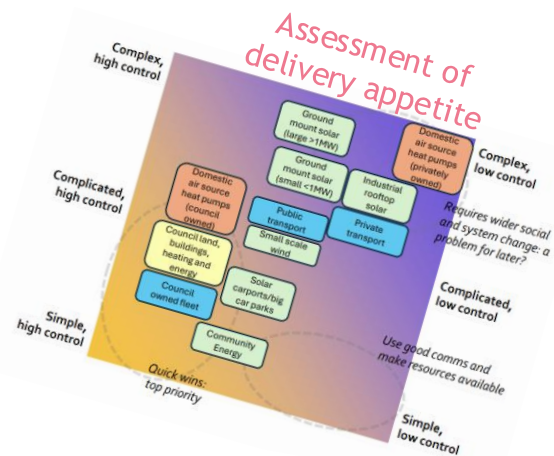

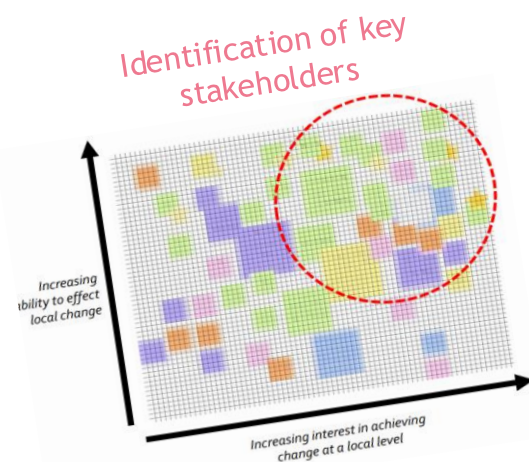

and at the same time...

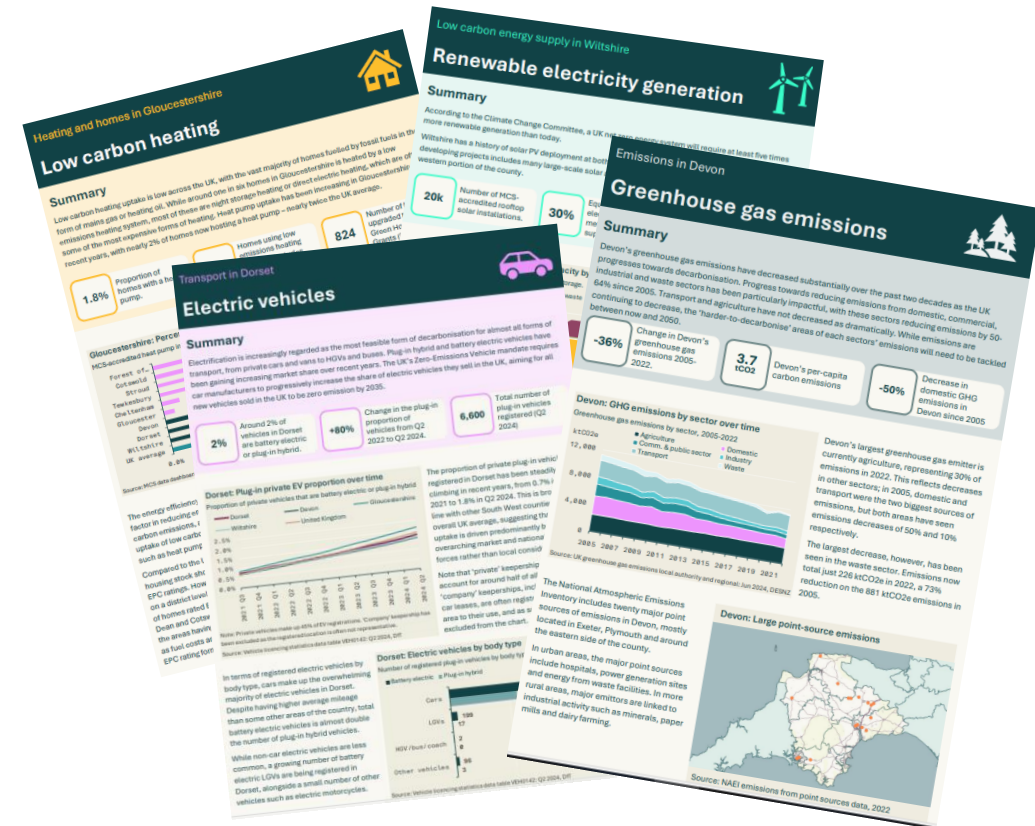

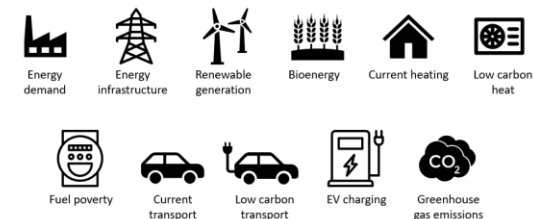

Request for information – Strategic Investment for regional energy planning

# Outputs so far

## LOCAL AREA CHARACTERISATION

## BASELINE ENERGY REPRESENTATION

# Some big questions have come up...

What are the roles of the LA in energy planning/net zero?

How to balance action/delivery vs strategic planning?

What are the trade-offs of long-term whole system planning vs short term delivery of sector specific activity?

To LAEP or not to LAEP?

How to make the most of tRESP/RESP?

How to meaningfully submit responses to RESP and DFES?

What elements of energy planning will the RESP fill?
